

# POURYA ZEYDI

Front-end Developer

## SUMMARY

As a Front-End Developer, I excel in creating engaging and responsive user interfaces through proficient use of JavaScript and modern frameworks like Next.js(React.js). With a keen eye for detail and commitment to staying updated on industry trends, I ensure optimal performance across diverse devices. Eager to contribute my technical expertise and creative approach to enhance your development initiatives.

## EXPERIENCES

### Yadeam Finance

Jul 2024 - Oct 2024

- Developed scalable and efficient user interfaces using Next.js 14, ensuring high performance and responsiveness.
- Collaborated with cross-functional teams to deliver seamless web applications tailored for financial services.
- Implemented modern front-end best practices, focusing on usability and accessibility.

### Aspinas Graphic

Dec 2023 - May-2024

As a Frontend Developer at Aspinas Graphic, a logo designer and card designer site in Iran, I specialized in creating visually compelling and responsive web designs. Working as a freelancer, I utilized React and TypeScript to build dynamic user interfaces and ensure cross-device compatibility. My role involved closely collaborating with designers to transform creative concepts into fully functional and aesthetically pleasing websites, enhancing the brand's digital presence and user engagement.

### Sazmand Co.

Dec 2022- Mar 2023

- Focused on developing scalable web applications using Redux, Tailwind CSS, and JavaScript.
- Built seamless user interfaces that integrated efficiently with backend systems.
- Optimized performance and ensured a smooth user experience.
- Crafted responsive and adaptive designs leveraging Tailwind CSS, contributing to the company's reputation for innovative architectural solutions.

### Iran Saghf Novin

Jan 2022- Jan 2023

As a Frontend Developer at Iran Saghf Novin, a company specializing in indoor design for houses and offices, I was responsible for developing and maintaining the company's online platform. Utilizing React, Next.js, and Tailwind CSS, I created interactive and user-friendly web pages that showcased the company's portfolio and services. My role involved implementing modern web technologies to enhance site performance and user engagement, ensuring that the platform remained competitive in the market.

### Farzanegan High School

Apr 2021-Feb 2022

As a Frontend Developer at Farzanegan High School, a gifted school, I worked on creating educational web applications using HTML5 and JavaScript. My contributions included developing interactive features and responsive layouts that facilitated better learning experiences for students. By focusing on accessibility and usability, I ensured that the school's digital tools were effective and engaging, supporting the educational mission of Farzanegan High School.

### V Cafe Tehran

Jun 2019-Jul 2023

- Collaborated with a team to design and develop the website for V Café, ensuring a seamless and user-friendly experience.
- Utilized HTML5, CSS3, JavaScript, and React.js to create responsive layouts that adjusted well across all devices.
- Implemented interactive elements and optimized the website's performance for faster load times and better user engagement.
- Worked closely with the design team to align the website's interface with the café's brand image, creating a visually appealing and functional platform.
